LEARNING JOURNEY BY TEAM ACCIO
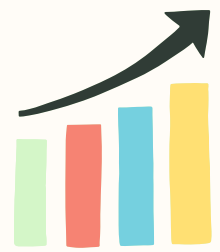

INSPIRATION

Two months ago, Accio signed up for GirlsCode without realizing they would grow so much

PROGRESSION
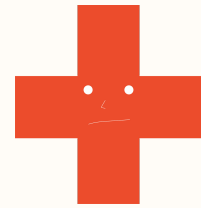

main function - scoliometer

log out

**The initial idea was only a scoliometer app**

We conducted a simple survey among scoliosis patients.

Their suggestions gave birth to Spinector

STRUGGLE

1 UNREAD MESSAGE

Hi, Huan. I showed your app to my parents and doctor. They envpurage me to use it. They also said its easy to use but very effective.

6:06 pm

Type a message

People doubted our app, but it didn't defeat us. We asked the patients for their opinions
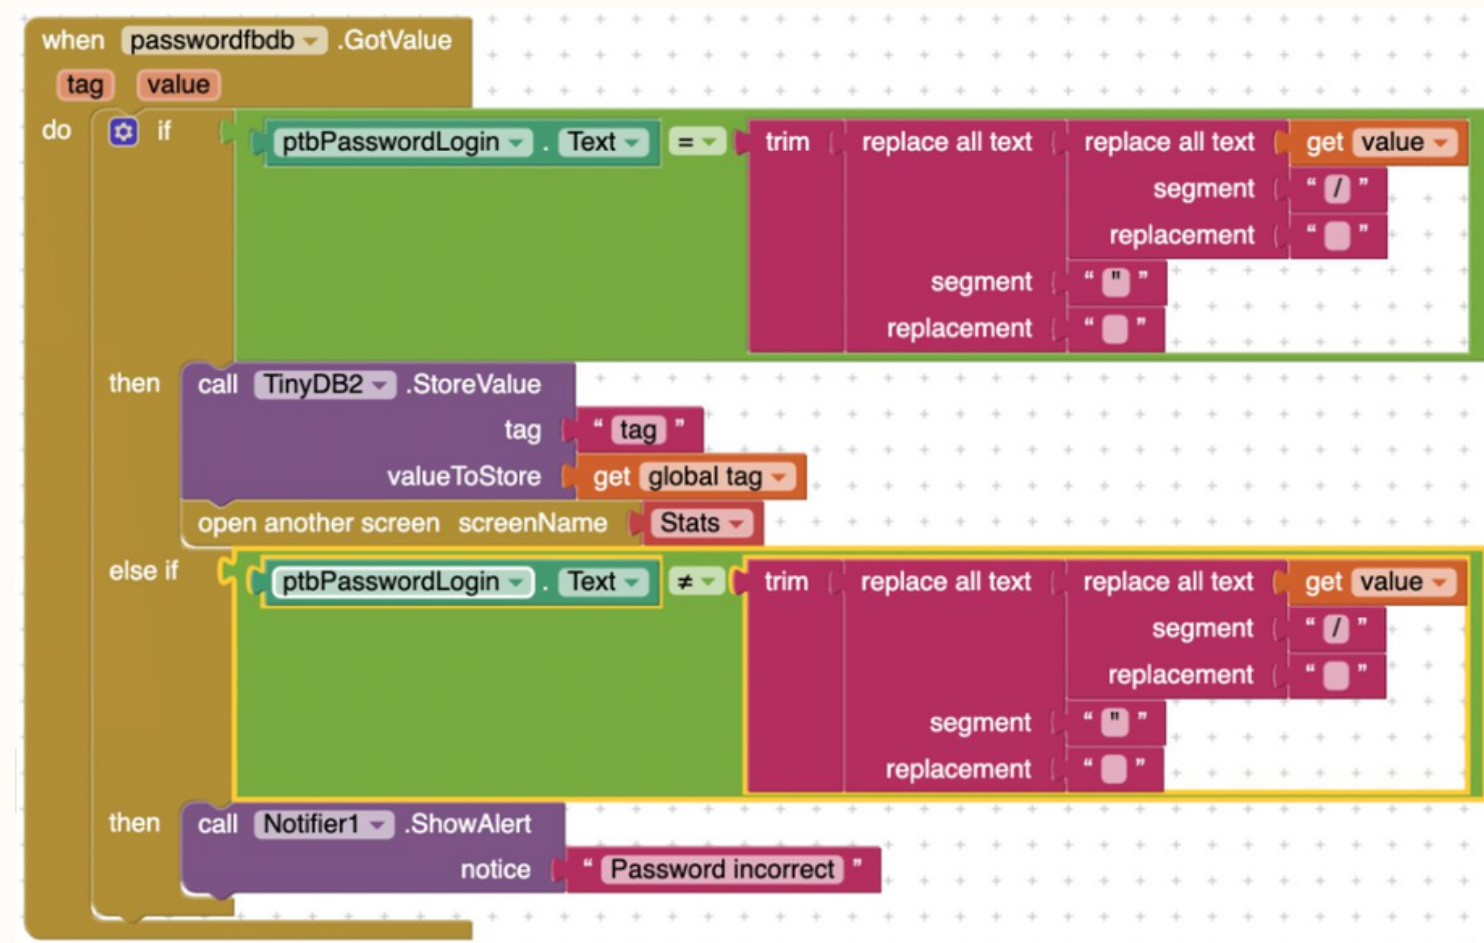

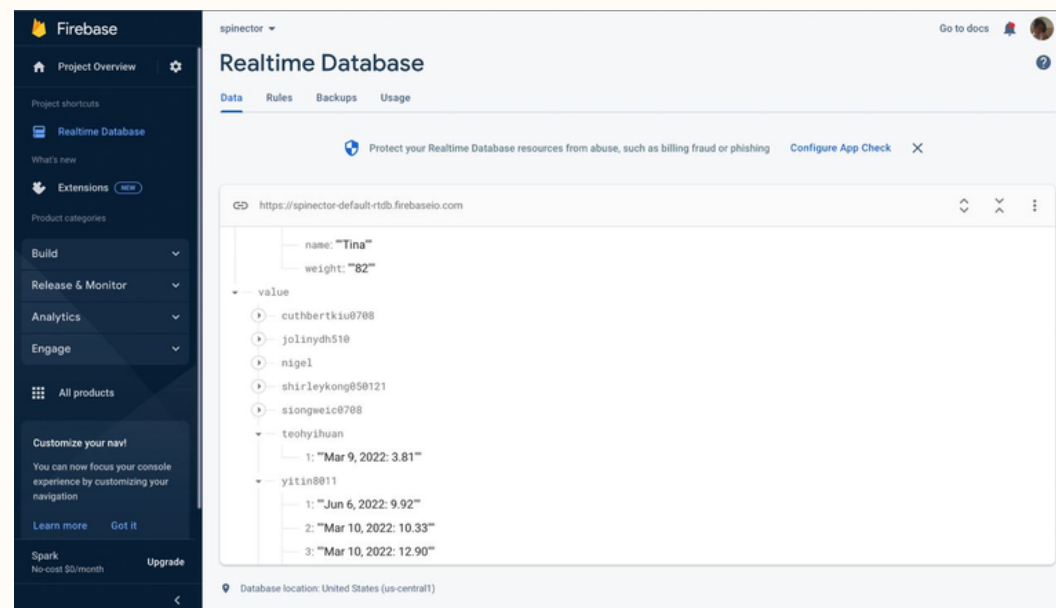

Even their parents and doctors recommended our app!
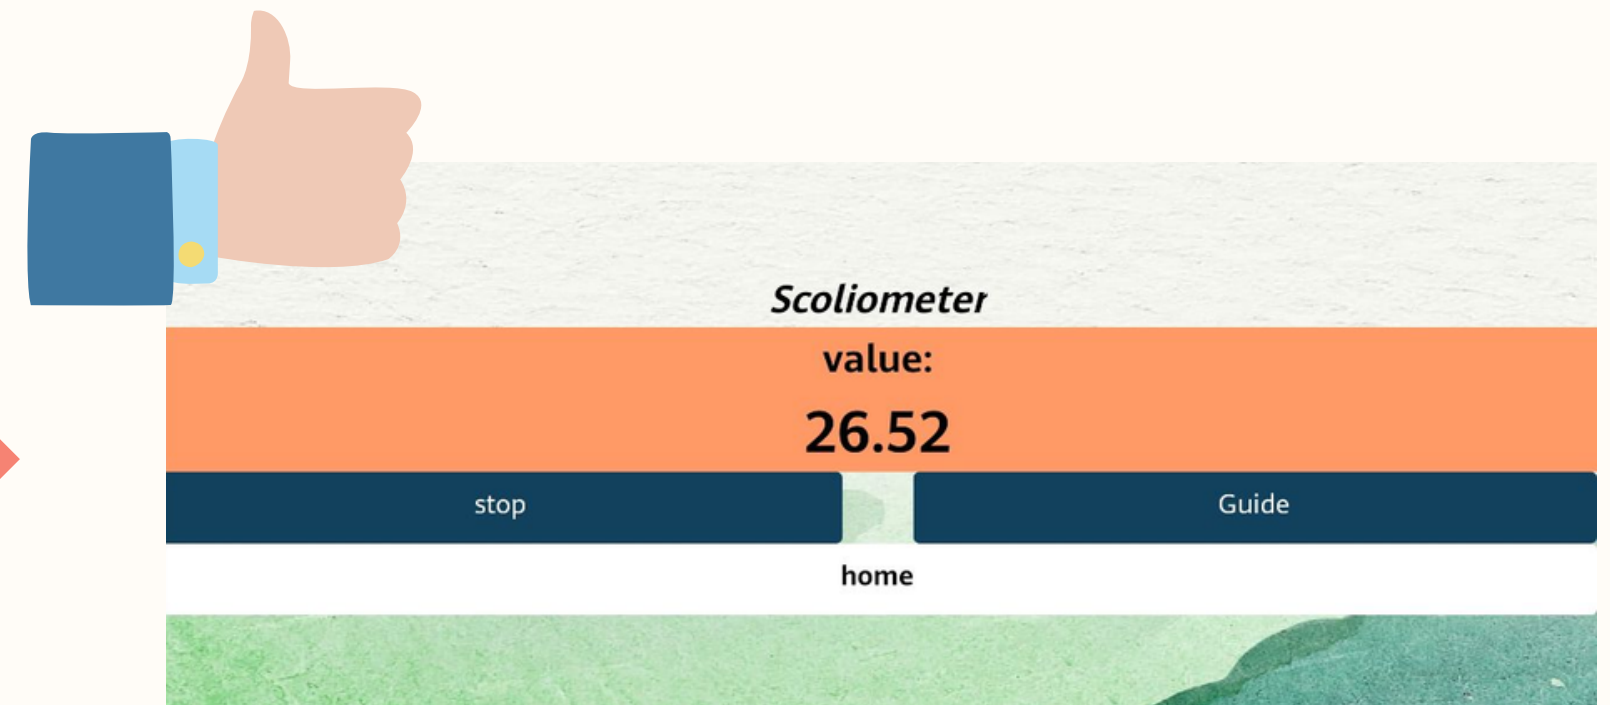

TECHNICAL

## We learned to integrate....in our app

- **Tiny DB**
- **list**
- **variable**

OVERALL GROWTH

Bad arguments to is list empty?

The operation is list empty? cannot accept the arguments: , [""]

End Application

Scoliometer
value:
26.52

home
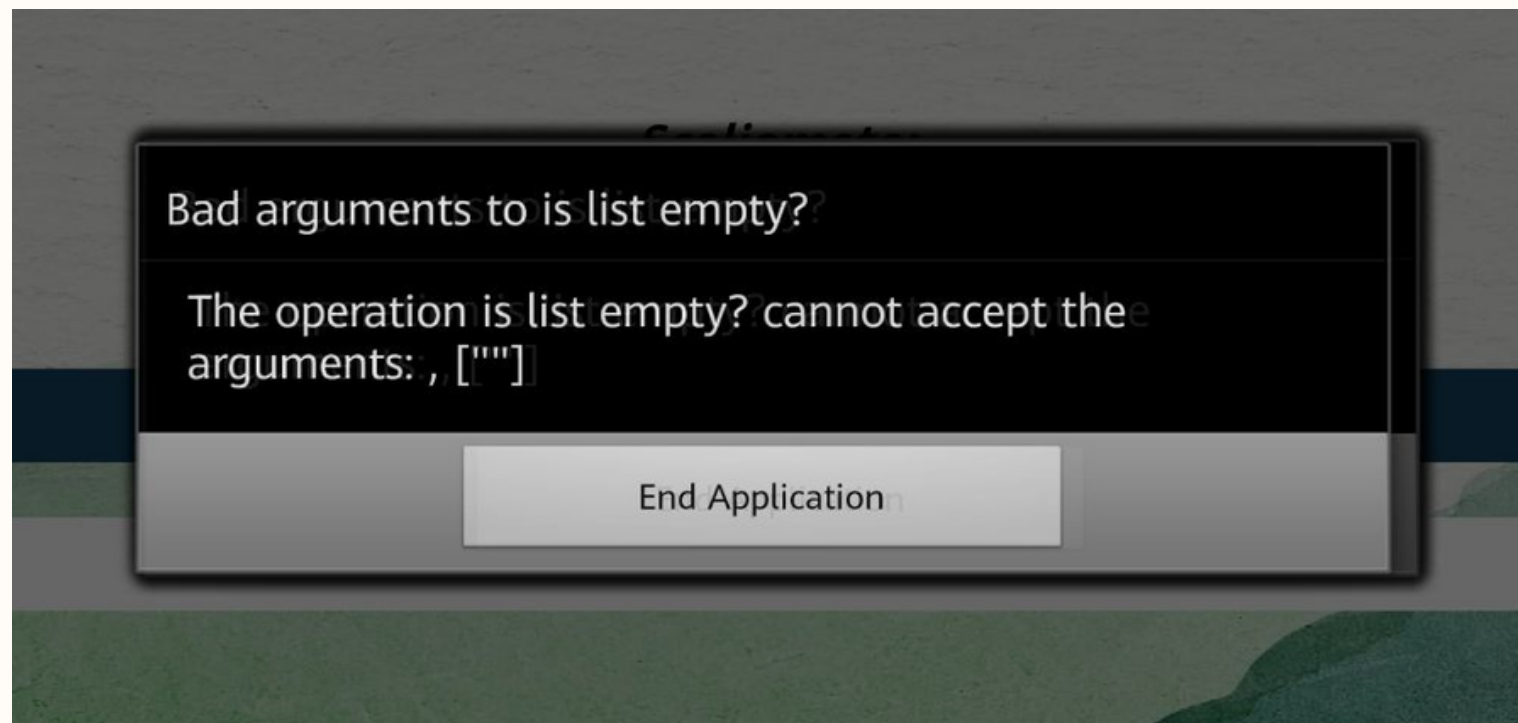

Failure drives us to success

Never stop trying !

OVERALL GROWTH

We **divided** our tasks according to our **strengths**

Together, we **complement** each other perfectly to complete our tasks !

Teamwork makes the dream work !

🙂
